

Muneer Ahmed Qazi, Ph.D. (Postdoc)

Associate Professor (Permanent, BPS-20)
Institute of Microbiology, Faculty of Natural Science,
Shah Abdul Latif University, Khairpur.
Email: qazi.muneer@salu.edu.pk
Phone: +92-243-9280286 (Office of the HoD)
Mobile: +92-311-4360786, +92-300-8300217

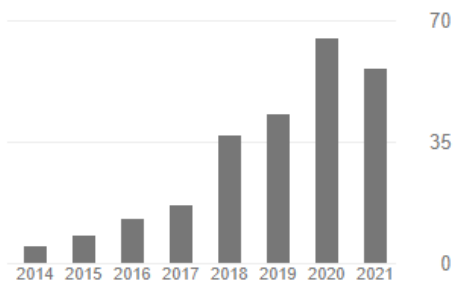

Research Interests

- Biosurfactants: Production, bioprocess optimization, applications
- Industrial Microbiology and Biotechnology
- Environmental & Applied Microbiology
- Genetic and Metabolic Engineering
- Natural products

Research Statistics

Publications 119
- 26 (Research Articles)
- 60 (Conference papers)
- 01 (Abstract publication)
- 31 (GenBank Submissions)
- 01 Patent (European Patent)
Citations 244

Education

Nov 2009 – May 2014 **Ph.D., Microbiology**
Quaid-i-Azam University, Islamabad, Pakistan

Aug 2007 – Jul 2009 **M.Phil, Microbiology**
Quaid-i-Azam University, Islamabad, Pakistan

Aug 2005 – Aug 2006 **M.Sc. (Final), Microbiology**
Shah Abdul Latif University, Khairpur (Mir's), Sindh, Pakistan

Aug 2002 – Jul 2005 **B.Sc. (Hons.), Microbiology**
Shah Abdul Latif University, Khairpur (Mir's), Sindh, Pakistan

Feb 2000 – Jan 2002 **Intermediate (Higher Secondary School Certificate, HSSC), Pre-Medical**
Mehran Model College, Pano Akil, Board of Intermediate and Secondary Education (BISE), Sukkur, Sindh, Pakistan

Feb 1998 – Jan 2000 **Matriculation (Secondary School Certificate, SSC), Science**
Government High School, Rohri, Board of Intermediate and Secondary Education (BISE), Sukkur, Sindh, Pakistan

Theses

May 2014 **Ph.D. Thesis**
Title: "Production and Characterization of Biosurfactants from Indigenous Microorganisms" from Department of Microbiology, Quaid-i-Azam University, Islamabad, Pakistan; **Date of PhD completion:** 16-May 2014 (notified on 05.06.2014); **Field of specialization:** Microbiology, sub-specialization: Environmental and Applied Microbiology

Aug 2009 **M. Phil. Thesis**
Title: "Production of bioemulsifier from Pseudomonas putida SOL-10 and its application as enhancer of antimicrobial activity of some antibiotics" from Department of Microbiology, Quaid-i-Azam University, Islamabad, Pakistan. **Field of specialization:** Microbiology

Research & Teaching Experience

Period	Job Description
March 2021 – present	Postdoctoral Fellow (02 years) under Belt-&-Road Fellowship Initiative (BRFI) Program Key Laboratory of Systems Microbial Biotechnology, Tianjin Institute of Industrial Biotechnology, Chinese Academy of Sciences, Tianjin 300308, China.
Nov. 2019 – present	Associate Professor (BPS-20) Institute of Microbiology, Shah Abdul Latif University, Khairpur Sindh, Pakistan.
Sept. 2017 – Nov. 2019	Assistant Professor (BPS-19) Institute of Microbiology, Shah Abdul Latif University, Khairpur Sindh, Pakistan.
Aug. 2017 – Sept. 2017	Assistant Professor (BPS-19, ad-hoc) Institute of Microbiology, Shah Abdul Latif University, Khairpur Sindh, Pakistan.
Jan. 2017 - Aug. 2017	Assistant Professor (Contract, USPCAS-W) Institute of Waster Resource Engineering and Management, Mehran University, of Engineering and Technology, Jamshoro Sindh, Pakistan.
Sept. 2015 - Dec. 2016	Assistant Professor (Contract) Department of Microbiology, Shah Abdul Latif University, Khairpur Sindh, Pakistan.
Sept. 2014 - Sept. 2015	Assistant Professor (IPFP, HEC) Department of Microbiology, Shah Abdul Latif University, Khairpur Sindh, Pakistan.
Nov. 2009 – Jun. 2014	Research Associate (Ph.D.) HEC funded Project No. 1366, entitled " <i>Production and Characterization of Biosurfactants from Indigenous Microorganisms</i> " at Department of Microbiology, Quaid-i-Azam University, Islamabad, Pakistan.
Sept. 2007 – Aug. 2009	Junior Research Assistant (M.Phil.) Project title: " <i>Production of bioemulsifier from Pseudomonas putida SOL-10 and its application as enhancer of antimicrobial activity of some antibiotics</i> " from Department of Microbiology, Quaid-i-Azam University, Islamabad, Pakistan.

Awards & Grants Received

August,2017	HEC- National Research Support for Universities (Rs. 2.77 Million) for the project entitled " Design, fabrication and performance evaluation of Bio-IETS: Biofilm-based industrial effluent treatment systems for the treatment of Sugar Mill Effluents (SMEs) (Duration 24 months)
September,2015	HEC - Start-up Research Grant (Rs. 0.385 Million) for project entitled "Isolation and characterization of thermo-halotolerant biosurfactant-producing bacteria for microbial enhanced oil recovery (MEOR) application". (Duration 9 months)
Jan 2013	Award: 1st Prize for best poster presentation , at International Conference organized by PSM-ASM during 28-31 January, 2013, at Karachi, Pakistan.
May 2012	Scholarship: Six Months Scholarship under International Research Support Initiative Program (IRSIP) funded by Higher Education Commission, Government of Pakistan.
Sep 2010	Scholarship: Full PhD Scholarship under Indigenous 5000 PhD Fellowships Program funded by Higher Education Commission, Government of Pakistan.

RESEARCH SUPERVISION

Previous MS/M.Phil students supervised

1. Bakhtiar Ali Jakhrani. *Microbial Decolorization of Triphenylmethane and Azo dyes by halo-thermotolerant bacteria isolated from hyper-saline environment.* (M.Phil. Thesis: 10/2016).
2. Irfan Ali Phulpoto. *Isolation and characterization of thermo-halotolerant biosurfactant-producing bacteria for microbial enhanced oil recovery (MEOR) application.* (M.S. Thesis: 10/2016).
3. Asif Ali Panhyar. (M.S. Environmental Microbiology) *Design, Fabrication and Performance Evaluation of Fluidized Expanded-Bed Biofilm Reactor (FEBBR) systems For the Treatment of Sugar Mill Effluents (SMEs).* (M.S. Thesis: 10/2018)

- Saddam Hussain Shaikh (M.S. Environmental Microbiology). *Toxicity and Environmental Impact Assessment of Sugar Mill's Effluent: Pre- and Post-bioremediation Study*. (M.S. Thesis: 01/2020)
- Dr. Nisar Abbas Shar (M.Phil. Medical Microbiology). *Prevalence of Helicobacter pylori Infection and Its Risk Assessment for Gastritis and Gastric Carcinoma in Individuals Consuming Spicy Food in District Khairpur*. (M.Phil. Thesis: 01/2020)

Current MS/M.Phil/ Ph.D. students

- As Guide (at Institute of Microbiology, SALU Khairpur)**
 - PhD students**
 - Dr. Dilijan Mugheri (Ph.D. Microbiology) *Isolation and characterization of bacteria associated with acute bacterial meningitis (ABM) in children: case studies of Larkana region, Pakistan* (Expected Graduation: August, 2020)
 - Dr. Dayali Gul (Ph.D. Microbiology) *Evaluation of multi drug resistant bacteria causing urinary tract infections in pregnant women* (Expected Graduation: December, 2021)
 - Inam Ali Larik (Ph.D. Microbiology) *Isolation and molecular typing of multidrug resistant bacteria from pharmaceutical waste and their application for antibiotics cleanup*. (Expected Graduation: December, 2021)
 - Dr. Dileep Kumar (Ph.D. Microbiology) *Characterization and frequency assessment of cutaneous bacterial infections in diabetic patients in Larkana region* (Expected Graduation: December, 2021)
 - M.S./M.Phil. students**
 - Rooma Khuhro (M.S. Environmental Microbiology). *Thesis submission in progress*. (Expected Graduation: August, 2021)
 - Farhaz Khuhro (M.S. Medical Microbiology). *Thesis submission in progress*. (Expected Graduation: August, 2021)
 - Ahmed Saeed (M.S. Medical Microbiology). *Thesis submission in progress*. (Expected Graduation: August, 2021)
 - Ali Bux Khuhro (M.S. Environmental Microbiology). *Thesis submission in progress*. (Expected Graduation: August, 2021)
 - Dr. Rukia Pathan (M.Phil. Medical Microbiology). *Thesis submission in progress*. (Expected Graduation: August, 2021)
 - Javed Ahmed Solangi (M.S. Medical Microbiology). *Research work in progress*. (Expected Graduation: August, 2020)
- As Co-Guide (at SALU Khairpur)**
 - PhD students**
 - None
 - M.S./M.Phil. students**
 - Samreen Chandio (M.Phil Botany) *Submitted thesis* (Expected Graduation: August, 2021)
 - Amir Ali (M.Phil Microbiology) *Thesis submission in progress*. (Expected Graduation: August, 2021)
 - Marvi Shaikh (M.Phil Botany) *Research work complete and awaiting final Seminar & thesis submission* (Expected Graduation: September, 2021)

- Patent(s):**
 - 🇪🇺 01 European Patent No. EP3502266A1
